

Deutsche Windtechnik is a **service provider** that specialises in **high-quality maintenance and repair of wind turbines**, both onshore and offshore. With over twelve years of experience, our professionalism is a defining characteristic of our business activities in both the domestic and international markets.

Customer satisfaction is our top priority, and this is why we constantly make every effort to fulfil our customers' requirements and further develop our expertise.

Our **contact with partners** is characterised by **fairness, respect, commitment** and open, personal communication. At the professional level, we promote an objective, honest exchange of information.

Our good reputation is based on **strong cooperation**, which management and all employees strive to maintain. Our **team works** proactively to foresee risks and prevent predictable accidents.

We specialise in delivering excellent quality, **and thinking and acting in a safety-conscious manner** are our top priorities. Every employee receives the **necessary training** required to ensure a safe working environment, define clear responsibilities and **clearly communicate** the company's quality objectives.

We train and educate our employees to ensure an injury-free working environment, and we apply **internationally recognised standards** for safety training and emergency procedures.

We are committed to **protecting the environment** by promoting the use of new technologies, processes and research of new products that contribute to better environmental health.

Consulting our employees and getting them to participate in these processes is part of our company culture.

Fulfilling the legal requirements placed upon us by the corresponding authorities is one of our highest priorities.

Corporate management encourages all managers and employees to contribute to maintaining the good reputation of the company and to promote further business.

A handwritten signature in blue ink, appearing to be 'M. Brandt', is positioned above the name of the signatory.
